

From Business School to my Dream Job

© Serge Garazi

I have now completed my MBA master
And am ready to be a Project manager
Or Business Analyst in Finance or IT,
In Risk-Management or Business Continuity.

After years of working
In IT and Banking,
I thought it would be cool
To go to Business school.

And now, I have added to my past experience
Some new business knowledge in Organization,
Strategy, Marketing and Decision science,
In Crisis management and Communication.

I've lived in Rotterdam,
Mexico and New York,
And ready, now I am
To, again, go to work.

I enjoy creating contacts and maintaining
Long-term relationships. With teams I like working.
I am eager to learn and result-oriented,
In improving things and in progress interested.

Do you have work for me?
Then, please, do contact me
In German or English,
In French or in Spanish.

My email is [business "at" garazi.net](mailto:business@garazi.net).
Want more information? Then, go on Internet.
At garazi.net you can read what I say,
Find interesting details and get my resume.
